DID YOU KNOW?

Aboriginal Languages use different sounds and pronunciations to Australian English.

For example, many Aboriginal Languages roll the letter ‘rr’ to make a trill sound. This is done by vibrating the tongue behind the top of the teeth.

Other Languages use the ‘ng’ sound found in words like ‘singer’ at the start of their words.

LIVING LANGUAGES, STRONG FUTURES

NSW Aboriginal Languages Week

18 - 25 OCTOBER 2026
